

Mounts sold separately, fuel canisters not included

## MARINE KETTLE® GAS GRILL

Instantly disassembles without tools for easy cleaning.

- 1 100% 18-9 mirror polished stainless steel. For long lasting beauty and superior corrosion resistance.
- 2 Hinged Lid. Convenient balanced hinged lid will not slam shut.
- 3 "Stay Cool" handle with air cooled supports.
- 4 Newly designed, swiveling, windproof turbo venturi & control valve design. Virtually eliminates blow-outs. Places the fuel & valve where it is convenient to you. Allows safe & easy fuel changes.
- 5 Burner & hi tech radiant plate heat distribution design. Less flare up, even heat distribution and longer grill life.
- 6 Combination "easy-to-clean" grease catch pan/wind baffle. Keeps the wind gusts out while keeping the flames and grease in.
- 7 Magma's patented design fully utilizes both radiant and convection cooking. Quickly comes to temperature then heats the entire grill surface evenly while using the least amount of fuel.
- 8 Uses standard, disposable 1-lb. propane canisters or adapts to on-board LPG (propane) or CNG (natural gas) systems..

A10-205 Original Size  
Diameter 15 in. (38 cm)

A10-215 Party Size (shown)  
Diameter 17 in. (43 cm)

Designed for economy without sacrificing functionality. 100% 18-9 mirror polished marine grade stainless steel construction, provides superior corrosion resistance. Using Magma's time tested, high efficient radiant plate heat distribution system in conjunction with convection heating technology to achieve hot, even temperatures very quickly while using a minimum of fuel for searing steaks and fish or just grilling up some burgers or dogs.

Includes a perfectly balanced hinged lid that won't slam shut, with a sturdy heat-resistant cast plastic "Stay Cool" handle. An indexed bowl assembly which enables grill to be rotated allowing lid to be used as a wind shield. The redesigned turbo venturi tube makes it dependable in even a stiff breeze, virtually blow-out proof and a swiveling control valve/regulator, designed to use standard, 1-lb. disposable propane fuel canisters, allows for quick, safe fuel canister exchanges or easily adapt to an existing onboard LPG (propane) or CNG (natural gas) system. These grills quickly disassemble without tools for easy clean up.

*The Magma Advantage*

## MOUNTS - MARINE KETTLE® GRILLS

**Double Locking "Stowable" Pedestal Mount**  
A10-184

Use with any Magma Marine Kettle Grill

**Round Rail Mount**  
A10-080 Standard Rails  
7/8" or 1" (22 mm or 25.5 mm)
