

Teak Care by So Pac Marine - Teak Wonder Brightener

TEAK WONDER® BRIGHTENER is a lightening process used to eliminate shading from the teak which may still persist even after the application of the **TEAK WONDER® CLEANER**. The application of **TEAK WONDER® BRIGHTENER** is not always necessary, but when used on aged surfaces it has an effect that seems miraculous: the teak immediately regains its natural colour (like newly sanded but without removing precious layers of grain).

The brightening process should be carried out on a wet surface, ideally straight after cleaning. Apply **TEAK WONDER® BRIGHTENER** sparingly and evenly to avoid a patchy result then wash the deck.

The effect of the **TEAK WONDER® BRIGHTENER**, is immediate and the result instant. As with the cleaner, rinse away the solution with plenty of fresh water. The product is neither caustic nor aggressive, and will not damage rubber seals, paint or hardware. Once dry, the surface is ready for application of protective **TEAK WONDER® DRESSING & SEALER**.

Carefully wash away any product left on non-teak surfaces.

The coverage is approximately 8-10 m²/ltr (depending on the condition of the wood).
